

AXESSSM Features

- Monitor print devices, and display printer inventory in an easy to navigate online format
- Secure data collection
- One way transmission of data compliant with HIPPA, Sarbanes Oxley, GLBA, and FISMA
- No additional hardware is required
- Able to manage print at multiple locations
- An automated system that proactively notifies you about device status – low toner, service requested, etc.
- Identifies problems that may not be apparent in the print environment.

AXESSSM Benefit

- Discover costs associated with a print environment
- Optimize operational time of print devices
- Time saving when ordering supplies
- Eliminates “emergency” situations where supplies need to be rushed
- Reduce the number of help desk calls that are print related
- The ability to proactively maintain service and supplies
- Helps eliminate printing “pain” – can address internal concerns regarding print
